NB Power is proud to introduce our new website that puts the power to manage your NB Power account in your hands.

The new website gives you all the tools you need to maximize your monthly savings. And, it offers a new secure self-serve option that lets you manage your NB Power account at your convenience.

In addition to offering you conservation tips, the website also includes innovative new tools that allow you to focus specifically on your electricity use.

With the new nbpower.com, you can

- sign up for paperless billing
- view all of your account information including current and past electricity use
- view and pay your current bill
- sign up for pre-authorized payment plan
- look at your billing and payment history, and
- request services such as tree trimming or water heater repair or delivery.

The new Home Energy Centre is a customizable home energy tool that helps you understand and interpret your specific electricity use and determine ways to save money. Using the tool, you can enter information about your residence so you can find answers to the following questions:

- Is my home energy efficient?
- How does my energy use compare with other similar homes?

- How can I reduce my energy use?
- How much can I save?
- How can I get the most out of my heating and cooling systems?
- Which appliances use the most energy?
- Are energy-efficient appliances worth the extra money?
- Which home improvement projects have built-in energy savings?
- How can I save energy without spending a lot up front?

Visit www.nbpower.com today to get started with our convenient self-serve option.
