

Welcome to a whole new way of driving!

Congratulations on your decision to drive electric. We think you're going to love it!

This package is full of useful tips and information to help you settle into this new kind of driving.

In it you'll find:

- The EV Handbook: Created by the New Brunswick EV Owners' Group, this guide will walk you through the basic steps for charging, maintaining, and driving your car throughout the year. Keep it nearby as a handy reference.
- A Getting Started tip sheet with information on charging at home and on the road, guidance for exploring your EV's range, and more.

Did you know that you're eligible for a rebate on a home charging station? You can get up to \$750 back on the purchase and installation of a qualifying Level 2 Home Charging Station. For details [visit the EV Rebate page](#)¹ on NBPower.com.

For charging on the road, get to know NB Power's **eCharge Network**. EV chargers are available every 60 km on New Brunswick highways. See your tip sheet for information on other charging networks.

More EV information and support is just a click away. Find additional tools and tips to help you feel confident and comfortable driving electric. Just visit nbpower.com/electricvehicles.

Welcome to the EV world, the fun and friendly way to drive!
